MICHAŁ BYSTRYK

PRODUCT-ORIENTED FULLSTACK DEVELOPER

PROFILE

I'm an experienced fullstack developer who develops applications that most importantly help achieve companies' business goals. I consider myself a communicative and business-oriented person who actively engages in discussions. I use AI tools such as Cursor, Claude Code and Code Rabbit to increase my productivity. If you're looking for someone who is not only a developer but also a partner in your business, I'm the right person for you.

WORK EXPERIENCE

Frontend Developer

Widelab/Pirxey | 09.2025 - ongoing
React, Typescript, Tailwind, AI

- Building AI powered chatbot.
- Developing admin panel for managing paid users.

Frontend Developer

Blazity | 03.2025 - 09.2025
React, Next.js, TypeScript, Tailwind, Radix UI, AWS

- Successfully developed an MVP of a no-code system for creating messages in RCS technology.
- Created an internal project estimation tool.

Frontend Developer

SignalOS | 03.2024 - 03.2025
React, Next.js, React Native, TypeScript, Material UI

- Developed multi-tenant dashboards to help site owners manage their tenants' permissions.
- Built mobile apps for employees to easily use building's facilities, such as booking a parking spot or entering the building using NFC.

Frontend Developer

Mobile Marketing Center | 03.2023 - 12.2023
React, TypeScript, Styled Components, SCSS

- Developed an application for learning foreign languages.
- Optimized websites for performance and SEO, which led to higher conversion.
- Measured websites' effectiveness with analytic tools.

AWARDS

AKAI Code 2022 Hackathon

Winners of the "Best use of technology" category

IT-inder - Artificial intelligence and swipe mechanism used to connect developers with projects that match their experience and the technologies used. I was responsible for creating frontend of the application.

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process.
